

Whatever Floats Your Boat... Perspectives on Motherhood

A documentary created by women, for women, about women.

To be or not to be . . . a mom? That is the question of the weekend as a group of women set sail on a houseboat. The mother of all topics comes to the surface with courage and candour in this personal exploration about the choices and responsibilities associated with the motherhood decision. Also on the DVD is a sample facilitated discussion.

This kit, which includes a CD with questions associated with the documentary, inquiry-based lesson ideas, additional perspectives and an annotated bibliography, provides professors, instructors and teachers of women's studies, family studies, life planning and media literacy courses with the tools necessary to engage and challenge students to explore how our perceptions of conventional and unconventional motherhood are shaped.

Twenty percent of all proceeds from the sale of this educational kit go to Brown Bagging for Calgary's Kids, a charity tackling childhood hunger one lunch at a time.

Documentary running time: 53 minutes

Facilitated discussion: 20 minutes

Documentary Price (DVD): \$24.95

Educational Resource Kit (includes DVD of documentary): \$74.95
